EXPERIENCE

Subtext*, Portland, OR — *Sr. Front End Web Developer*

JULY 2017 - PRESENT

Collaborate with development teammates, designers, and account managers in a tight-knit, fast-paced digital ad agency setting.

Responsible for leading full website builds from the ground up based on custom, in-house designs. This includes initializing repositories, staging sites, and eventually coordinating a live launch. Most websites were WordPress-based, utilizing a flexible starter theme, which I also helped to develop as part of an agency-wide effort to streamline the build process.

Fluid Advertising, Bountiful, UT — *Web Developer*

AUGUST 2015 - JULY 2017

Collaborate with developer teammates, designers, digital marketing team members and account managers in fast-paced ad agency setting.

Responsible for coding pixel-perfect WordPress builds where the client has full access and flexibility to modify content. Set up MySql databases, local development environments and staging environments for client review. Websites built from scratch using cutting-edge web technologies.

Fluid is the winner of 31 awards at 2017 AAF Utah Advertising Awards, making it the most awarded advertising agency in Utah.

IMS Advertising, Middletown, CT — *Web Developer*

AUGUST 2014 - AUGUST 2015

Worked with clients to develop user-friendly, aesthetically pleasing, well-functioning and informative WordPress websites from the ground up.

EDUCATION

University of Vermont, Burlington, VT — *B.A. Computer Science*

AUGUST 2010 - MAY 2014

Minor: Anthropology. Faculty and Staff Award, University of Vermont Computer Science Fair, 2013.
